TRANSLATING COMPLEX SOLUTIONS INTO STRATEGIES THAT WIN

Solution Design and Strategy Leader with 10+ years architecting visual and strategic narratives for the nation's highest-stakes defense and intelligence proposals. Deep expertise in translating complex technical capabilities into compelling, customer-centered solutions for federal clients — from billion-dollar IC contracts to FEDSIM bids. Proven ability to align engineering, business development, and executive stakeholders around a unified solution vision. TS/SCI cleared with a track record of winning.

CORE COMPETENCIES

SOLUTION ARCHITECTURE & DESIGN

Translating engineering specs and technical capabilities into structured, customer-centered solution frameworks for federal acquisition.

FEDERAL CUSTOMER STRATEGY

Deep understanding of federal procurement, evaluation criteria, and how government customers evaluate and adopt new capabilities.

STRATEGIC VISUAL COMMUNICATION

Executive-level presentations, technical diagrams, and concept visualizations that move decision makers and accelerate buy-in.

CROSS-FUNCTIONAL LEADERSHIP

Bridging engineering, BD, and mission teams — aligning diverse stakeholders around a coherent solution narrative under deadline pressure.

EXPERIENCE

Senior Solution Designer

2025 – Present

Booz Allen Hamilton

- ▶ Leads solution design strategy for the firm's highest-priority federal proposals, bridging technical concepts and executive narratives into cohesive, winning submissions.
- ▶ **Performed as Solution Architect** on a high-value proposal — embedded with a senior technical team to orchestrate their approach into a structured, compelling solution. Guided the architecture of technical introduction and approach slides, transforming fragmented engineering content into a unified, evaluator-ready narrative that communicated both depth and impact.
- ▶ Collaborates directly with Senior Leadership, SMEs, and capture teams to develop win themes, solution frameworks, and graphic strategies that differentiate proposals in competitive evaluations.

Lead Capture & BD Designer

2024 - 2025

Arcfield

- ▶ Lead designer for classified proposal efforts and capture initiatives in the defense and intelligence space, including end-to-end branding and design systems supporting competitive positioning.
- ▶ **Partnered with Senior Leadership** to design Arcfield's unique processes and frameworks during capture phases — developing the visual and structural language that would anchor future proposal efforts before RFP release.
- ▶ **Mentored and managed a Lead Designer** in solution design methodology, building internal capability in translating complex technical concepts into evaluator-ready visual narratives.

Lead Proposal Graphics Designer & Web Developer 2016 - 2024

Booz Allen Hamilton

- ▶ **Graphic solutioning lead** for Booz Allen's most critical Intelligence Community and FEDSIM proposals — directly supporting contract awards exceeding \$5B from 2023 to present.
- ▶ Served dual roles across the **Intel market and Growth team** simultaneously — providing solution design and graphic solutioning support across both business units, managing as many as **9 active proposals at a time** under competing deadlines.
- ▶ Front-end developer and designer for **Intel.gov, ODNI.gov, and IARPA intranet** platforms — building and styling classified web environments from the ground up. Recipient of the ICy Award for Website Excellence.
- ▶ Trained and mentored junior designers in a classified environment; established design standards and production workflows adopted firm-wide.

Principal Consultant

2013 - Present

Clifton Solutions, LLC

- ▶ Independent marketing, design, and strategy consultant serving Fortune 500 and Fortune 5000 companies operating within the government contracting ecosystem.
- ▶ Delivers proposal graphics, brand identity, digital strategy, and executive presentation support for clients across defense, intelligence, and civilian agency markets.

Branding & Communications Designer

2014 - 2016

VMD Systems

- ▶ Led corporate business development design, including company-wide proposal graphics, brand identity, print production, and marketing collateral.
- ▶ **Designed, developed, and managed VMD's entire corporate website** — owning the full lifecycle from architecture and design through development and ongoing maintenance.
- ▶ Responsible for all **networking events and physical marketing presence** — including trade show booths, event signage, and promotional materials that represented the brand in the government contracting market.
